Art Unit: 1714

1. The amendment of 9/30/02 has been entered. Claims 1-24 are pending.
2. Claims 2-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - A. These claims recite "average molecular weights" without specifying what type of average molecular weight is being claimed, e.g. number, weight, viscosity, z, etc. averages. This issue is explained in general polymer texts and is therefore considered to be well known in the technology. The amendment is not sufficient to overcome the rejection since the standard type of molecular weight to which the polymers are compared in the GPC is not specified. It is noted that any type of polymer molecular weight can be determined by GPC depending on the type of molecular weight noted with the standard that the unknown is compared with.
3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground

Art Unit: 1714

provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1-24 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-16 of U.S. Patent No. 6277811 Kasturi et al..

Although the conflicting claims are not identical, they are not patentably distinct from each other because, although the claims differ somewhat in scope, they are substantially of the same invention such that it would have been obvious to one of ordinary skill in the art at the time of the instant invention to make the instantly claimed composition from that of the patented claims since they substantially overlap in scope. The applicant's argument that the instant claims are not obvious over the patented claims is not persuasive in that the claims overlap so much, as stated above. The argument regarding suitability for use in hand dishwashing is noted but is not persuasive in that the instant claims and the patented claims encompass the same composition to the degree that the overlapping subject matter must have the same suitabilities. Given the content of surfactants and detergents in the instant composition and its ability to make suds, it would necessarily be able to be used in washing dishes by hand. No evidence to the contrary is seen. This rejection is maintained.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
